Is New York's Dairy Herd Doomed?

T is vital to you people in New York whether the vast herd of 420,000 cows which produce your milk is increasing or decreasing. The herd has decreased at the rate of 13,000 a year for ten years, because the average dairy farmer has made practically no money. With population increasing and milk production decreasing, the time will soon come when a serious milk shortage and high prices will stare you in the face. The October rise in the price of milk has not begun to cover the 35% increased cost of labor, cows and feed.

We Sell Our Milk at About 41/2 Cents a Quart. has increased 28.5% in cost. I arm labor has in-

Figure what it costs us for investment charges for pasture lands, barns, stables and live stock, and then bear in mind that we have to buy a large part of the feed for our cows and within one year this

creased from 30 to 50%. Little wonder that there are less dairy farmers and less cows in New York State.

But You Should Have More Milk

Every family should, on the average, drink twice as much milk as it now does. Few other foods are so cheap, so easily digested or so nutritious. Milk is Nature's balanced ration. You take it as Nature offers it to you. It is a known fact that the more cows there are

on a farm, the lower is the cost of milk production. If you wish moderate-priced milk, you must use more of it and so protect the dairy herd.

We dairymen are partly to blame for the milk situation. We have never explained to you until recently why we have never had a living profit for producing your milk, and why you ought to double your milk order in justice to your family's health and your pocket book. No one objects to paying the proper price for anything when he understands its worth to him.

Will you buy milk at 12c a quart or the same amount of nourishment at these prices: 2 lbs. of chicken at - 3/4 of a lb. of round steak at - 4/5 of a lb. of pork chops at -8 eggs at 3 lbs. of fresh cod fish at 3/5 of a lb. of ham at 30c 21c

For Health's Sake Drink More Milk. For Economy's Sake Double Your Milk Order Today.
